PROFESSIONAL SUMMARY

Aspiring Software Engineer with a strong foundation in full-stack development, database management, cloud computing and machine learning. Skilled in building robust applications using Java and Python along with strong command on data structures and algorithms. Passionate about collaborating with dedicated teams to create efficient and user-friendly solutions.

SKILLS

Languages and Databases: Java, Python, HTML, CSS, Javascript, SQL

Tools and Technologies: Express.js, React.js, Node.js, Bootstrap, REST API, jQuery, Flask, Git, Github, MySQL, Web Design, UI/UX Design, Postman, Linux, AWS Cloud

Concepts: Data Structures and Algorithms, Database and Querying, System Design, Unit and Integration Testing, Machine Learning, Deep Learning, Natural Language Processing

Soft Skills: Adaptability, Leadership, Resilience

EDUCATION

B. Tech (Computer Science Engineering)	Sharda University	CGPA: 8.06	2022 to Present
AISSE (Class XII), CBSE	Bharatiya Vidya Bhavan's School	Percentage: 93.67%	2022
AISSE (Class X), CBSE	Bharatiya Vidya Bhavan's School	Percentage: 90.00%	2020

MAJOR PROJECTS

Virtual Team Collaborative Workspace | Full Stack, RAG and LLM | [Github Link](#) | [Web App Link](#) Jan 2026

- Built a remote collaborative workspace using MERN stack to manage tasks, deadlines, and share resources with deployed frontend and backend.
- Implemented dynamic task scheduling using a Min-Heap priority queue to auto-reallocate tasks or update deadlines.
- Integrated a RAG model built with LangChain, FAISS, and Llama 3.1 70B which generates a grounded, document-aware response achieving 92.37% retrieval accuracy and MRR@5 of 0.91 on documents shared by the team members.

Legacy Data Extraction and Management Tool | Full Stack, ML and Deep Learning | [Github Link](#) | [Web App Link](#) Oct 2025

- Built a web application using HTML, CSS, Javascript and firebase authentication to extract text from unstructured legacy documents, focusing on digitizing noisy government data - MOSPI archives.
- Fine tuned detectron2, TrOCR with 2000+ annotations, used post-OCR correction using SymSpell achieving CER - 7.01%, WER - 14.21% on highly degraded texts. Project frontend and backend deployed and paper presented in an IEEE conference.
- Trained YOLOv8 with page wise annotations for table extraction from pdf to excel sheets achieving 86.03% mAP@50.

Food Waste Management System | Full Stack and Machine Learning, Data Science | [Github Link](#) | [Web app Link](#) Aug 2025

- Built and fully deployed a web application using MERN stack for university's hostel mess that predicts quantity of food to be prepared per meal aimed to reduce food wastage.
- Collected past 5 years of hostel attendance and meal records and trained a Gradient Boosting model achieving R^2 of 0.9946 and an MAE of 6.26kg. This tool causes a significant drop in food wastage from 45-50kgs to approximately 5-10kgs per day.
- Deployed React frontend on Vercel, Node.js/Express backend, Flask ML microservice on Render with MongoDB Atlas as database.

WORK EXPERIENCE

Machine Learning Intern | LearnNex Oct 2024 to Jan 2025

- Acquired skills through training in Python, Flask and Machine Learning, gaining hands-on experience in data preprocessing, exploratory data analysis, and model development.
- Collaborated on real-world Machine Learning projects, implementing end-to-end predictive pipelines and deploying solutions using Docker containerization for scalable, production-ready environments.

Freelance Backend Developer | Generation Entertainment Jun 2024 to Aug 2024

- Developed backend for a web application using Node.js, Express.js, MongoDB, and JWT-based secure authentication.
- Designed and implemented RESTful APIs with complete CRUD operations and database management for user data and sessions.
- Deployed backend services on AWS EC2 and validated all API endpoints using Postman across multiple test environments.

CERTIFICATIONS/COURSES

[Link of all Certifications](#)

- Complete Data Science, ML, DL, NLP, Bootcamp - May 2025
- Database Foundations by Oracle Academy - Oct 2024
- Summer Bootcamp on Data Science - Jun 2024
- Java Fundamentals by Oracle Academy - Mar 2024
- The Complete 2023 Web Development Bootcamp - Sept 2023

ACIEVEMENTS AND INTERESTS

Achievements:

- Awarded Best Paper Presentation Award at an IEEE conference for my research paper - 2025
- Received Meritorious Student Award by Honorable Chief Justice of India - 2023

Interests:

- Exploring new Technologies and Developer Tools, Public Speaking and Hosting, Indian Classical Dance
